**RE: Lost Plantation Subdivision
Base Finish Floor Elevation**

Dear Mr. Brogdon,

In regard to the referenced project, it is our opinion that the minimum finish floor elevation for this subdivision be established at 12.00 feet above mean sea level. We have compared historical flood data in the area, particularly in Blueberry Subdivision and the lowest FF in Blueberry Subdivision is 11.79 MSL. Based on information from the residences none of the houses in this subdivision experienced structural flooding in the past several years which includes the storm in October 1994.

If you have any questions, please contact our office.

Sincerely,

FREEMAN & VAUGHN ENGINEERING, INC.
